

Hasmonean Multi-Academy Trust Scheme of Delegation

The Elector Rabbonim oversee the ethos of Hasmonean Multi-Academy Trust (MAT). They also appoint the members of the JSSM.

The JSSM owns the land on which the academies within the Hasmonean MAT (Hasmonean High School for Boys and Hasmonean High School for Girls) are built. It also appoints the Members of Hasmonean MAT.

The Members of the MAT comprise one corporate Member, the JSSM, and up to three other members. They have the power to appoint and remove the Hasmonean MAT's Board of Trustees.

The Hasmonean MAT's Board of Trustees has extensive experience of education and corporate governance and a shared desire for high standards and excellence. They have the power to appoint and remove the individual academies' Local Governing Bodies.

The Hasmonean MAT's Board of Trustees governs the company. All trustees have the same powers and responsibilities.

Hasmonean Multi-Academy Trust is a company limited by guarantee and a charitable trust. Responsibility for the schools that make up the Trust and for the funds granted by Parliament for providing education in those schools is entrusted to the Hasmonean MAT Board of Trustees.

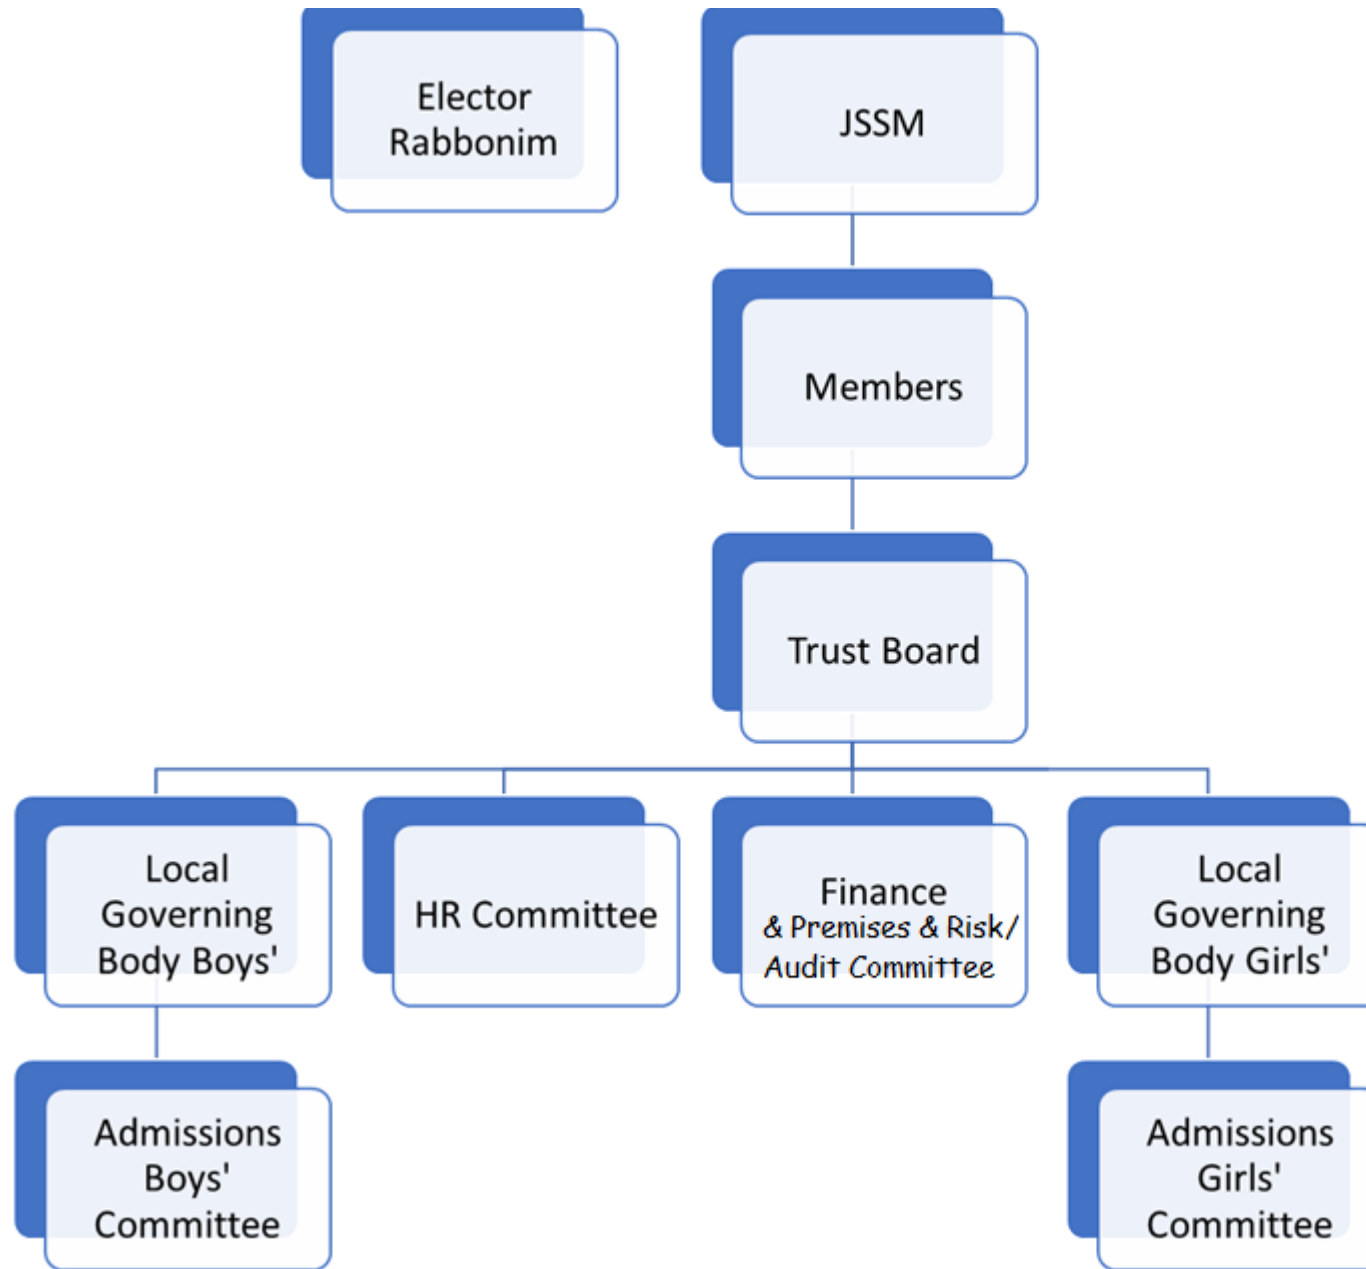

The Trust governance model delegates a high level of responsibility and decision making to its Local Governing Bodies; it recognises the significant contribution that excellent local governance can make to a school. In order to support this model, the Trust ensures that Local Governing Bodies are well trained and supported.

School improvement, school management, finance, ICT, HR and legal advice systems are well-developed and shared across the Trust, under the direction of the CEO and the Hasmonean Board of Trustees.

- obtain outside legal or independent professional advice it considers necessary, normally in consultation with the Accounting Officer and/or the Trust Board.
- **3. Composition**
- the membership of the committee will comprise a minimum of 3 trustees.
- employees of the trust should not be audit and risk committee members, but the accounting officer and chief financial officer should attend to provide information and participate in discussions.
- the chair of trustees should not be chair of the audit and risk committee.
- where the audit and risk committee is combined with another committee, employees should not participate as members when audit matters are discussed.

- at least one member of the audit and risk committee should have recent or relevant accountancy, or audit assurance, experience.
- any trustee may attend a meeting of the audit and risk committee, including those who are not members of the audit and risk committee.
- **4. Reporting**
- The Audit and Risk Committee will:
- report back to the Trust Board regularly every term.
- provide an annual summary report provided by the internal scrutineer / auditor and areas reviewed by internal scrutiny / audit covering key findings, recommendations, and conclusions

- **5. Coverage**

- The Audit and Risk Committee will:

- advise the board on the effectiveness and resources of the external/internal auditors or scrutineers to provide a basis for their reappointment, dismissal, retendering, or remuneration. Considerations may include:
- the auditor's/scrutineer's sector expertise
- their understanding of the trust and its activities
- whether the audit process allows issues to be raised on a timely basis at the appropriate level
- the quality of auditor/scrutineer comments and recommendations in relation to key areas
- where relevant the personal authority, knowledge and integrity of audit partners and their staff to interact effectively with, and robustly challenge, the trust's managers
- the auditor's/scrutineer's use of technology

- consider the reports of the auditors/scrutineers and, when appropriate, advise the Trust Board of material control issues.
- encourage a culture within the trust whereby each individual feels that he or she has a part to play in guarding the probity of the Trust, and is able to take any concerns or worries to an appropriate member of the management team or in exceptional circumstances directly to the Board of Trustees

- **Internal Scrutiny**

- take delegated responsibility on behalf of the board of trustees for examining and reviewing all systems and methods of control both financial and otherwise including risk analysis and risk management; and for ensuring the Trust is complying with the overall requirements for internal scrutiny, as specified in the Academies Financial Handbook.
- conduct a regular review of the risk register
- agree an annual programme of internal scrutiny / audit, which is objective and independent, covering systems, controls, transactions, and risks.
- advise the trustees on the adequacy and effectiveness of the trust's systems of internal control, governance, and risk management processes,
- consider the appropriateness of executive action following internal audit/internal scrutiny reviews and to advise the board on any additional or alternative steps to be taken
- oversee the annual review of the trust's risk register

- **Annex 2**
- **Suggested areas of coverage**
- This list of suggested areas is not intended to be exhaustive. The audit and risk committee will ensure that the internal scrutineer develops a cyclical programme of work tailored to the trust and its risks.
- **Cash and Bank**
- Ineffective monitoring of liquidity and cash and bank balances is a key risk to any business. Cash forecasting needs to be accurate, and the trust needs to be able to ensure that it retains an appropriate level of liquid or near liquid balances to withstand any short-term interruptions to incoming income. Cash itself frequently represents a security risk, and the systems for safe storage, collection, banking and reconciliation need to be effective and secure.
- The scrutineer may test a number of transactions and the controls and procedures around the transaction, including:
 - whether the trust has a treasury management policy and it is being followed
 - review the trust's cash forecasting process to ensure it is effective and accurate
 - review the trust's financial procedures for the receipt and banking of income to ensure that they are adequate, and the trust is adhering to them.
 - check a sample of income (grant and non-grant) from source records to verify that the income has been correctly accounted for.
 - check what action has been taken for any overdue income.
 - ensure that monthly bank reconciliations have been carried out, including reviewing validity of reconciling items, and reviewed
 - procedures around the administration of the trust's bank account(s) including, the opening, compliance with the bank mandate signing instructions and access to the bank account
- **Procurement**
- Poor contract management will result in trusts paying too much for goods and services, or even paying for services they do not need. Value for money audits can also be used to test accepted practice. The AFH sets out some obligations for trusts in relation to related party transactions and conflicts of interest. There are numerous appropriate operational checks. The following list is not exhaustive:
 - check of a sample of purchase orders to delivery notes and invoices to ensure that documentation is complete, has been appropriately checked and authorised
 - check of a sample of payments back to invoices, purchase orders and delivery notes to confirm they are legitimate purchases
 - review statements from suppliers to ensure they are being checked, investigate any disputed invoices
 - review contracts, ensuring proper tendering procedures exist and are being followed
 - check purchase of any capital assets (e.g. desk computers, interactive whiteboards, kitchen equipment) for physical existence
- **Monthly financial closedown**
- Monthly closedown will follow a set procedure and the scrutineer may test a number of the relevant steps, including:
 - review that monthly bank reconciliations have been carried out, including reviewing validity of reconciling items,
 - review of the purchase ledger control account reconciliation and/or creditors list against invoices received

- review of the sales ledger control account reconciliation and/or debtors list against invoices issued
- review of the accruals schedule against costs committed but not yet invoiced
- checks of petty cash balances and supporting vouchers
- review of any budget virements and adjusting journals for reasonableness and authorisation
- review of any write-offs of debt or other losses for reasonableness and proper authorisation
- **Payroll and HR**
- Ineffective HR systems can lead to low morale and productivity. Effective systems mean staff are properly skilled and can focus on their proper role. Recruitment and training also warrant attention. Payroll will account for the vast majority of the trust's expenditure and so ought to feature in any programme of testing:
- review of a sample of starters, leavers and salary increases to ensure they are properly authorised and payroll / personnel data is recorded completely and accurately
- review of the monthly payroll to ensure that any changes and salary payments have been appropriately authorised
- a reconciliation of payroll to HR records to ensure that leavers and allowances are not paid beyond the appropriate dates
- a check of statutory and non-statutory deductions from pay
- review of a sample of expense claims to ensure there is appropriate documentation to support the claim and that it is appropriately authorised
- **Efficiency, funding, and budgets**
- Whether the expected economies of scale arising from merging and updating "back office" functions are being realised. Whether there is tension between the need for efficiency and operational autonomy of constituent academies in a trust with multiple academies. Is there a gap between the trust's educational aspirations and its financial means, including the funding challenge, and is this addressed through the multi-year budget process? Are budgets properly prepared and reviewed / challenged by management and the finance committee and consistent with the trust's business plan pupil census, human resources and other data?
- **Fraud, theft, and bribery**
- Fraud can be costly and embarrassing, and the threat is constant. All trusts should have preventative controls in place, as well as a fraud risk assessment and counter fraud plan. Low-level fraud may be hard to detect, and one-off checks may be an effective deterrent
- **Safeguarding and whistleblowing**
- All trusts should have effective policies, protocols, procedures, and documentation in place. Failure in these areas can damage a trust's reputation and, of course, there is hardly an issue of greater importance than pupil safety and welfare. Specialist skills may be required to provide assurance in these areas
- **Management information and reports**
- Review the trust's management information to ensure information supplied is consistent with the underlying accounting records and internal management reports, including:
- management accounts

- financial reports to board
- pupil data and census returns
- returns to the DfE/ESFA
- Ensure management accounts are properly supported by explanations for significant variances from budget and are subject to appropriate review and challenge by management and the finance committee
- **Data and IT issues**
- Good data is the foundation of effective decision making. Business continuity and recovery of key systems such as attendance management systems should also feature.
- Data protection (e.g. GDPR compliance) is also likely to be a key issue.
- IT systems should be assessed for their resilience in terms of exposure to cyber security risks
- **Premises issues**
- Capital projects can be expensive and complex, but consideration should also be given to disaster recovery, business continuity and PFI issues and well as health and safety, fire prevention, asbestos, legionella and so on.
- **Governance structures**
- Trusts need governance structures and processes appropriate to their size and structure. These must be regularly reviewed and should include Board and committee, executive and operational structures.
- **Business Continuity Plans/Disaster Recovery**
- The trust must have adequate plans in place to ensure business continuity in the event of any disruption. These plans should be reviewed regularly to ensure they reflect current circumstances and anticipated risks.
